## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9, drawn to a non-naturally occurring recombinant DNA molecule comprising a sequence encoding a chelon protein, a transformed host cell and a method for producing a recombinant chelon protein, classified in class 435, subclass 69.1, for example.
- II. Claims 10-14, drawn to a method for removing a divalent mercury or cadmium cations by using a MerR or chelon protein, classified in class 800, subclass 278, for example.

For each of the inventions I-II above, restriction to one of the following is also required under 35 USC 121. Therefore, election is required of one of inventions I-II and one of inventions (A)-(I).

- (A). SEQ ID NO: 4
- (B). SEQ ID NO: 5
- (C ). SEQ ID NO:6
- (D). SEQ ID NO: 7
- (E). SEQ ID NO: 8
- (F). SEQ ID NO: 9
- (G). SEQ ID NO: 10
- (H). SEQ ID NO: 11
- (I). SEQ ID NO: 12

Art Unit: 1638

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

The inventions are distinct, each from the other because of the following reasons:

Inventions (A)-(I) are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions, represent structurally different polypeptides encoded by structurally different polynucleotides. Therefore, where structural identity is required, such as hybridization or expression, the different sequences have different effects. In addition, since each polypeptide is disclosed in specific SEQ ID NO: the structural difference between the polypeptides is not shown to be obvious.

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation, different functions and different effects.

Because these inventions are distinct for the reasons given above, have acquired a separate status in the art as shown by their different classifications, and the literature search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 1638

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Papers related to this application may be submitted to Technology Sector 1 by facsimile transmission. Papers should be faxed to Crystal Mall 1, Art Unit 1638, using fax number (703) 308-4242. All Technology Sector 1 fax machines are available to receive transmission 24 hrs/day, 7 days/wk. Please note that the faxing of such papers must conform with the Notice published in the Official Gazette, 1096 OG 30 (November 15, 1989).
